

KISHOR B

Full Stack Web Developer

Theni, Tamil Nadu, India | +91 8754215627 | kishorbagavathiraj@gmail.com | linkedin.com/kishor45 | kishor-b-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Web Developer with 1 year of practical experience building full-stack web applications using the MERN stack. Hands-on experience with React.js, Node.js, Express.js, and MongoDB, along with JavaScript and TypeScript, for developing responsive, database-driven applications. Skilled in REST API integration, CRUD operations, and admin management functionality, with practical exposure to multivendor e-commerce and inventory management systems, including online payment integration and application deployment. Also familiar with PHP/MySQL development and holds a strong interest in Python, with a working understanding of core programming concepts.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Nearlook Mart Private Limited

1 Year

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB, working across both frontend and backend functionality.
- Built responsive frontend interfaces and integrated REST APIs to implement CRUD operations for database-driven applications.
- Contributed to a multivendor e-commerce platform and an inventory management system, including admin management functionality.
- Integrated online payment functionality and deployed web applications using Vercel and Hostinger.

PROJECTS

Multivendor E-Commerce Platform

MERN Stack

HTML5, CSS3, JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB

- Developed an Amazon/Flipkart-style multivendor e-commerce platform with separate customer, seller, and admin management functionalities.
- Implemented product, seller, customer, cart, order, and product-variant management workflows with REST API integration.
- Integrated online payment functionality and developed responsive interfaces for seamless e-commerce operations.

Inventory Management System

PHP / MySQL

HTML5, CSS3, JavaScript, PHP, MySQL, SQL

- Built an inventory and sales management system to handle product management, stock management, sales management, and expense management.
- Implemented vendor management functionality to track and manage vendor-related operations within the system.
- Designed factory-to-store stock dispatch functionality to manage stock movement across store locations.

Real Estate Management System

PHP / MySQL

HTML5, CSS3, JavaScript, PHP, MySQL, SQL

- Developed a property management platform with separate admin login and employee login functionality.
- Implemented admin functionality to add and manage property listings using MySQL database integration.
- Built CRUD operations with role-based access control for structured and secure data management.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React.js
Backend	Node.js, Express.js, REST APIs, PHP, Python (Intermediate)
Database	MongoDB, MySQL, SQL
Tools & Deployment	Git, GitHub, VS Code, Vercel, Hostinger, InfinityFree

EDUCATION

Bachelor of Technology - Information Technology

Completed April 2024

Kalasalingam University, Srivilliputhur, Virudhunagar | CGPA: 7.74

HSC - Computer Science

Completed March 2020

Nadar Saraswathi Hr. Sec. School, Theni | Percentage: 70%

SSLC

Completed April 2018

Bagya Matriculation School, Theni | Percentage: 85%

CERTIFICATION

Python Backend Development

July 2024 - October 2024

Greens Technology, Chennai

ADDITIONAL TRAINING

Implant Training - Emglitz Technologies, Coimbatore

June 2022

Completed a 15-day training program in IoT and Python and developed a smart glove using IoT technology.
